

Culture Clash 2012

What is Culture Clash?

A live show that's 'shaken, not stirred' – blending both professionals and the community.

This multi-disciplinary performance is where people from different backgrounds, ethnicities, ages and disciplines collide.

How will we do this?

We will create a diverse and exciting event, drawing on stories from experiences of:

- Newcomers to New Zealand
- New Zealanders overseas

We will explore the theme of 'home' by asking the questions:

- What is home?
- Where is home?
- Is home a place or who I am?

We will use various performance styles by integrating

- dance
- ariel performance and chorus
- world music
- song
- storytelling

Who will be involved?

- Community groups and professionals who frequent TAPAC & Performing Art School NZ
- Community groups within & around Auckland of various ethnic diversities and performance styles
- A mix of ages – from young to senior citizens
- Performers wishing to make a connection to the Auckland performing arts scene

Why Culture Clash?

We want to

- support and work with our community
- collaborate with skilled professionals
- facilitate and bridge the gap between performers wishing to make a connection to the performing arts scene and audiences
- grow and diversify our audience
